The attached is the Head Moderator's Return for the Municipal Election held for the Town of Bethel on November 7, 2017. This return replaces the return sent to your office by fax on November 9, 2017.

As per our phone conversation with Heather Augeri this afternoon, we are mailing this return to you after finding discrepancies in the return caused by the Election Management System and its programmed formulas related to improperly allocating Unknown Votes. Heather advised us to make updates and corrections to the "Head Moderator's Return By District" which we have done. We are finding that the "Head Moderator Return by District" is still incorrect for Town Clerk in District 4 due to the incorrect allocation of Unknown votes.

The official return with the live signature is attached. On this return, you will see one correction that we made by hand. While the return in each of our voting Districts has been updated and corrected, the final return within EMS still has the incorrect numbers for Lisa Bergh, Town Clerk, due to the EMS programmed formula for party allocation of Unknown votes. Attached is the allocation of Unknown votes from EMS for Lisa Bergh. We have also attached the allocation of Unknown votes from the "Unknown Votes Calculator" found on the Secretary of the State website. You will see that the allocation of Unknown votes on these two pages does not agree.

Sincerely,

Nancy J. Ryan

Once all votes for each candidate and question have been counted either by tabulator or by hand all vote totals were recorded on the tally sheet and all final vote totals for each candidate and question were announced by the Moderator to all those present.

I hereby certify that the absentee ballot vote, including "overseas ballots" set forth in this Return for each candidate and for and against each question is correct and that the following numbers are true and accurate according to the worksheets signed by the absentee ballot counters.

CERTIFICATE FOR THE CLOSING OF THE POLLS

We, the undersigned Election Officials certify that after the polls were closed, the voting tabulator was closed and secured against further voting in accordance with the closing procedures in the Moderator's Handbook, Appendix D.

We further certify that the memory card seal on the front of the tabulator had not been broken.

We further certify that the Moderator fed all remaining ballots that were eligible to be counted by tabulator into the tabulator for processing.

We further certify that the tabulator thereupon produced an "Election Results Report" setting forth: the town, voting district, election date and vote totals for each candidate and question on the ballot.

We further certify that any ballots which could not be processed by the tabulator and any ballots containing write-in votes were hand counted by two election officials from different parties.

We further certify that the number on the public counter after all ballots that could be fed into the tabulator were processed, the number on the seals applied to the ballot transfer case(s) and tabulator carrying case(s), and the number of absentee and election day registration ballots (if counted at this location) which were tabulator processed in whole or in part are as recorded below.

Once all votes for each candidate and question have been counted either by tabulator or by hand all vote totals were recorded on the tally sheet and all final vote totals for each candidate and question were announced by the Moderator to all those present.
